

La Casa del Retoño Hotel,
Tlaquepaque

Our protection measures!

At **La Casa del Retoño Hotel** we seek to provide the best possible service, which is why we have implemented the following protection measures to take care of our health and that of our guests:

- The rooms that can be occupied per night will be limited to avoid the concentration of guests.
- Take the temperature of all the people who enter our Hotel (guests and staff).
- Application of alcohol gel to sanitize the hands.

- Use of sanitizing footwear mat at the entrance.
- In public areas, the use of face masks will be mandatory.
- Maintain a healthy distance of 1.5 meters from other guests (as long as they are not traveling together).
- We installed two additional sanitizing gel alcohol dispensers in the Hotel, as well as a hand washing station in the dining room.

- The buffet breakfast is suspended, now it will be offered à la carte.
- The tables available for breakfast are reduced, avoiding the proximity of guests during it.
- Additionally, cleaning and sanitizing of surfaces in rooms and public areas will be carried out.

We appreciate your preference and understanding towards these necessary measures at the current time.

Happy stay!
